EDUCATION

L.D.R.P – ITR,

Bachelor of Engineering in CE

Gandhinagar, Gujarat
Sep 2023 – May 2026 (CPI- 7.58)

Government Polytechnic Himatnagar

Diploma in Engineering in CE

Himatnagar, Gujarat
Nov 2020 - May 2023 (CPI – 8.43)

SELECTED PROJECTS

SalonBliss – Salon Booking App

May 2025

- Developed **SalonBliss**, a salon booking app with an admin panel to manage users, services, and bookings; admins can update booking statuses, send confirmation emails and real-time notifications, and oversee all salon operations.
- Designed clean, intuitive **user and admin interfaces**, enabling users to book services easily while allowing admins to confirm bookings, trigger automated email/notification alerts, and modify appointments and service details.

Shopyfy – Ecommerce MERN

May 2024

- Built **Shopify**, a full-stack eCommerce app using the MERN stack, where users can browse styled products, manage profiles/addresses, view past orders, add items to cart, and complete purchases via integrated payment gateway.
- Implemented secure authentication, email notifications for password reset, and toast messages for real-time feedback.
- Created an admin panel to monitor all users, orders, and payments with complete CRUD functionality and analytics overview.

Notely – MERN ToDo App

Dec 2024

- Built **Notely**, a modern ToDo app using the MERN stack with full CRUD operations, task duplication, and advanced filtering features.
- Designed a sleek UI with **Tailwind CSS** and added smooth animations using **Framer Motion** for the homepage and user profile.
- Implemented responsive layouts and seamless user experience across all devices.

News Blog App

Feb 2025

- Developed a **News Blog App** in React with features like categorized news, search, dark mode, and responsive UI.
- Added **language translation** support for multilingual accessibility and smooth user experience.
- Implemented modern UI with real-time article browsing and category-based filtering.

CERTIFICATES

- Backend Development - (PHYSICS WALLHA) 19 Nov 2024
- Responsive Web Design - (SOLO LEARN) 20 Mar 2022

TECHNICAL SKILLS

Languages and Framework: HTML5 | CSS3 | JavaScript (Es6+) | MongoDB, Express.js, React.js, Node.js | Python | Java | TailwindCss

Tools and Database: SQL | MongoDB | Git & Github | Postman (API Testing) | Chrome DevTools | npm
